

ELECTROFORMING SYSTEMS

To deposit thick layers of metal on to non-metallic and metallic components

20 litre integrated
PSU and tanks
model shown

Electroforming machines available from 10 to 1000 litres for the deposition of Silver, Copper, Nickel and fine Gold.

Single or three phase systems are manufactured and supplied to your precise requirements, based on our tried and tested machine design.

Suitable for decorative products, dental, mold making, casting patterns and general deposition of metals on metallic and non-metallic surfaces.

- ✓ Rubber and silicon molds and impressions
- ✓ Shells, nuts, grasses, flowers, leaves and other natural organic items.
- ✓ Wax, pitch and resin based mandrels
- ✓ Metal bearings, shafts and worn surfaces
- ✓ Mandrels for holographic images and CD patterns

Available with all chemicals, full instructions and training if required, contact us with your requirements and we will design a suitable plant for you.

40+ years experience in building metal processing equipment
