

DC RECTIFICATION

Including amp-time meters

RECTIFIERS

Conventional rectifiers giving robust service without complex electronic circuits.

Suitable for all forms of metal finishing.

Outputs from 25 to 300 amps DC

Larger outputs available to 10,000amps at all voltages (Switched mode types)

Pdf data sheet available

DS15

AMP TIME control

A range of amp—time meters, supplied in several formats. Separate or integrated into one of our rectifiers.

Ranges can be set for 10 to 10,000 amps

Pdf data sheet available

DS16

INTEGRATED RECTIFIER / CON-

Providing more sophisticated controls, for example,

Auto off after elapsed time,

Auto off after elapsed amp time pre-set limits,

Sequential timers with current reverse facilities on smaller models,

Thermostatic control of heating circuits,

pH control and dosing pumps,

Low level auto cut off for heaters to protect against solution loss causing fires and tank damage.
