

COMPANY PROFILE

Based in the Midlands of Great Britain we are metal processing plant engineers, founded 40 years ago. Our product ranges are designed and produced by our own factory and are supplied throughout the world, either direct to clients or via our distributor network. Our clients vary from Educational establishments to manufacturing companies to the rapid prototype industry. We export around 50% of our products to a wide group of countries and we are ISO9001 accredited.

BUSINESS ACTIVITIES

The manufacture of processing equipment, including,

- * Anodising machines for Aluminium and Titanium.
- * Electroplating & electroforming machines from laboratory to production plant sizes.
- * DC. rectification equipment, amp time controls, filter pumps
